

CLOWN DEEPENING LABORATORY:

“Only for Clowns”

A space time to deepen in myself.

To travel inward.

To let ourselves flow through the state and go through the technique.

To let the game take us to the maximum madness,

while remaining 100% in the present.

To really connect: with ourselves, with the game, with the other clowns, with the audience.

The workshop is aimed at people with experience in Clown Technique.

CONTENT:

State of Clown - Organicity - Clown thinking (thinking as a Clown very simple and very stupid!) - Relationship with the public - Corporality of the ridiculous - Rhythm and timing of the clown - Relationship with the objects and the costumes - Relationship with the scene partners

OVERARCHING OBJECTIVE:

Go through a training process: playful, technical, creative deepening of the Clown

NEEDS:

A ventilated room, wide enough for 16 people, suitable for bodywork and with an adequate floor. It must be cleaned daily before each session. It must be private, with no view from the outside (glass, windows, etc.) and no mirrors. Bathrooms and dressing rooms. Mineral water and glasses. Laptop with USB reader.

A removable screen or curtain, at least 2 meters high and one and a half meters wide (it must be removable during the beginning of the session).

IMPORTANT:

Students must have 80% attendance to complete the course. There will be 10 minutes of tolerance from the initial schedule (for any involuntary delay), then no one will be allowed to enter the working space.
